Travel charger

FTB16000S

Battery material: Lithium ion polymer 3.7V 16000mA/h
Ultrasonic mosquito killer 40~80000HZ auto frequency conversion
USB Output voltage 5V: can charge for cell phone, digital camera, DV, PDA and other digital products
Output voltage 9V, 12V: can charge all the digital camera, DV.
Output voltage 16V: can charge the products of 12V, the laptop of 14.4V
Output voltage 19V: can charge all the standard laptop
when you power on the notebook (laptop), this equipment can automatically detect a smart charging voltage, and only charge for the right voltage, if not the right one, it can't work.

Features

- product temperature is low, excellent low-power path design, energy conversion efficiency >92%, can up to 93.4%, the highest performance of similar products at present.
- use super-iron shell explosion-resistant extrusion, safe and reliable in the world.
- exclusive market up to 5V 9V 12V 16V,19V output, 2 into four functional design.
- exclusive voltage foolproof design, you cannot switch voltage during using, resulting in voltage does not match, resulting in damage to your valuable electronic products.
- exclusive turn up to support commercially available connector.
- built-in short circuit, over charge, over discharge, etc. Multiple protection.
- standard with 16 adapter suitable for a variety of Notebook products.
- use of high-energy polymer lithium battery, the working environment temperature -10℃ to +70℃, high security, no risk of explosion.
- cycle life is more than 500 times
- high-efficiency Polysilicon solar panel, conversion rate > 16%, normal life >20 years.
- LED lighting features.
- High-frequency mosquito repellent feature

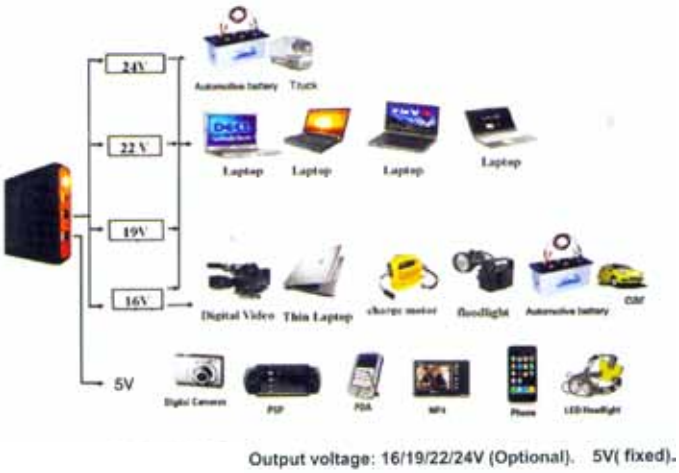
Travel charger

FTB16000S

Output voltage: 5V/ 9V/ 12V/ 16V (Optional). 19V(fixed).



Output voltage: 16/19/22/24V (Optional). 5V(fixed).

Specifications

Material of battery: Lithium-ion polymer: 3.7V 16000 mAh
Output voltage: 5/9/12/16V/19V (optional).
Output current: 1A/5V, 3A/9-12V, 4A/16-19V
Charging voltage: 100～240V AC/DC,
Charging current: 2A (max)
Charging Time (Max.): <3 hours
Electric eye dimension: 120mm x 80mm
Peak power supplied by photocell: 1.5 W
Material of electric eye: multi-crystal silicon solar
High solar energy convert efficiency: over than >16%
Material of electric eye surface: 1mm chemically toughened glass
Ultrasonic mosquito killer: 40~80000HZ auto frequency conversion
Available distance of mosquito killer: 100 SQFT
Flashlight: Ø10mm white LED
Accessories: AC100~240V Adaptor 1pc / Universal Connecting Cable 2pcs / English Manual / Camouflage bag / Car DC / DC 12~24V 2A charger 1 pcs (optional) / Mobile phone and Digital products connectors: 16pcs (optional)
Laptop PC connectors: 16pcs (optional)
Size: 140x90x25mm
Weight: 450g

Connectors
